

iPod & iPhone Audio+Video adaptor Alpine KCE-435i charge function (5V)

SKU: IP-ALP-435

General

With the NavInc Alpine iPod adaptor it is possible to connect an iPod / iPhone with an Alpine IVA-D106 DVD system. All functions will be adopted by the Alpine system. For example:

- Charge function (5V)
- iPod control
- Music playback
- Artist and album info
- Video display

Installation is Plug & Play. The NavInc Alpine iPod adaptor is comparable with the original KCE-435i iPod cable of Alpine. With this cable you can enjoy your iPod or iPhone via a 'full speed' connection via the Ai-NET input of the Alpine Radio or multimedia system. The KCE-400BT kit uses the iPod gate on the radio, but it is equipped with a bypass so it is still possible to control an iPod.

Features:

- Plug & Play connection
- Favorable price compared with the original KCE-435i
- iPod full speed connection
- Comfortable control via the Alpine radio or multimedia system
- Charge function of the iPod/iPhone (5V)

- Playback option for video files

The following is provided in the set:

- NavInc iPod cable
- Installation manual
- Warranty
- Invoice

Additional information:

- Check at the tab 'compatibility' on top of the advert if the car / radio / connection are suitable for this product.

Product specifications:

- iPod charge function: 12 Volt
- Weight: 20grs
- Cable length: 90cm
