NOTES

- It is essential to have an Aux-in, Bluetooth streaming option or USB input in the car.
- We recommend that the installation will be performed by a qualified specialist
- Check the other tabs for "Compatibility" - "Package contents" - "Product specifications"

DISCLAIMER

Apple, iPod, iPhone, iTunes, CarPlay and the CarPlay logo are registered trademarks of Apple Inc., registered in the U.S. and other countries. Android, Android Auto, Google Maps, Waze and Talk to Google are registered trademarks of Google Inc.

The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc.

Warranty notice: the NAVconnect box has a warranty period of 3 years and the APPplay box 2 years.

NOTES

- Android phone tend to have 2 different battery charge settings: Optimized & Fast. APPplay DOES NOT provide fast charging. To use Android AUTO without battery drain, it is recommended to get a wireless charging pad.
- The audio output from the APPplay must be connected with the media source of the car, for example with AUX input, AMI input or USB (AUX2USB adapter) to hear the sound of the APPplay module through the car speakers.
- Installing this product will not require any coding.
- Installing this product will not void the Warranty of the car.

REQUIREMENT

AUDIO OUTPUT	The interface inserts ONLY video signals into the infotainment. It is essential to have an Aux-in, when using audio from the APPplay box
VIDEO OUTPUT	Video goes via CVBS (NTSC)
CONTROL	You can control CARplay & Android AUTO via the included external controller
SCREEN	Interface is compatible with RTI DVD system
OPEN HU	Not need to open the monitor
FRONT CAMERA	The front camera input can only be select manually

OEM REAR CAMERA	The interface does not switch back automatically to the OEM rear camera input when the reverse gear is engaged.
GUIDELINES	Static lines are available via the interface OSD menu
iPAS	iPAS option is not available when the car has original pdc option (moveable grid lines)
PIP	PiP option is not available for original parking sensor overlay (Picture in Picture)
REAR SELECT CAMERA INPUT	Interface will respond on the rear detection wire to show the aftermarket camera automatically.
INSTALLATION	We recommend that the installation will be performed by a qualified specialist
EXTRA NOTE	RTI screen is a low resolution screen. Need to solder the open RGB wires from the interface to the RTI RGB wires.
