

## Volvo\_Aston Martin RTI Bluetooth Carkit interface (BT/USB/SD/AUX)

Art. Nr: BT3-VOL-RTI

---

### DESCRIPTION

---

The Bluetooth car kit interface simulates the CD-changer of Volvo & Aston Martin via Fiber Optical system (MOST). Due to the interface it is possible to control the telephone through the original radio or navigation system and the steering wheel control buttons of the car. The car kit is equipped with the latest generation Bluetooth chipset which enables the most modern telephones to connect through Bluetooth with the original system.

Besides the Bluetooth car kit it has also the possibility to play music via bluetooth streaming, USB, SD-card and AUX.

### Features

- Carkit hands-free function via original system
- Steering wheel button support
- iD3 tag support (see table)
- Bluetooth Audio streaming support
- USB support (MP3 & WMA)
- SD-card support (MP3 & WMA)
- App audio support (music & navigation)
- Easy menu for music & menu browsing
- Phone charging via USB (max 300mA)
- Support control functions like; PLAY, PAUSE, NEXT, PREV, FF, REW

### EXCLUSIVE INTERFACE FEATURES
