

JA series EVA protection case (for JA301,JA302,JA2500)

Art. Nr: LOK-CA01

1. The top layer can hold accessories, and the bottom perfectly fits a jump starter. Specially designed for **JA300/JA301/JA302/JA400/JA401/JA3000**. The jump starter has a dedicated slot and is thoroughly protected.
2. Made of rugged and durable EVA material, a hard EVA case + soft inner lining structure can effectively shield accidental collisions, dents, and scratches and has a waterproof/shockproof/dustproof function. The water and dust resistance of it is IP65 rating, which provides your jump starter a shield from splash, drips and moisture during outdoor activities.
3. Non-slip Handle. The non-slip handle makes it easy to keep your jump starter and accessories together and take them everywhere. The top layer can hold accessories, and the bottom perfectly fits a jump starter. Specially designed for **JA300/JA301/JA302/JA400/JA401/JA3000**. The jump starter has a dedicated slot and is thoroughly protected.
4. Perfect Craftsmanship. Heavy-duty reverse coil zipper secures the case, a built-in reinforced handle, and reinforced stitching at stress points for durability.
5. Fit for: Specially designed for **JA300/JA301/JA302/JA400/JA401/JA3000**. The jump starter has a dedicated slot and is thoroughly protected.

Note: CASE ONLY. A jump starter is NOT included.
